

GOLDEN CARE PRODUCT INSTRUCTIONS

Golden Care Teak/Hardwood Cleaner

1. Before using the TEAK CLEANER, eye protection and rubber gloves should be worn. Cover the ground under your working area before cleaning.
2. First moisten the furniture with water.
3. Shake TEAK CLEANER before use.
4. Apply TEAK CLEANER with a soft cloth or sponge. Allow to soak for 3 minutes.
5. Brush the furniture clean with a scrubbing pad in the direction of the grain.
6. Rinse furniture well with water.
7. For prolonged colour, leave the furniture to dry and treat with TEAK PROTECTOR.

Golden Care Teak/Hardwood Shield

1. Before using the TEAKSHIELD, eye protection and rubber gloves should be worn. Cover the ground under your work area before starting.
2. New teak: first clean with our Teak Cleaner to remove some of the natural teak oils (or weather for 2 weeks outside before treatment).
3. Before using the TEAKSHIELD on dark gray teak, clean the wood with a teak cleaner. If cleaned wood feels rough, sand lightly before treating with TEAKSHIELD.
4. Make sure the teak is 100% dry and free of dust.
5. Shake for at least one minute before use. Apply a thin layer of TEAKSHIELD with a soft cloth.
6. Allow to dry for 4 hours and then apply a second thin coat of TEAKSHIELD. Let the teak dry for 48 hours before exposure to moisture.
7. It is recommended that you treat your teak furniture with TEAKSHIELD a few times per year. Tabletops should be treated more often.

Golden Care Fabric Cleaner

1. Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your work area before starting.
2. NOTE: Test for colourfastness in an inconspicuous area before using.
3. Fabric Cleaner is ready to use.
4. Moisten the fabric to be treated thoroughly with water beforehand: (Small surfaces by dipping into water, larger surfaces using a sponge or plant spray.)
5. Spray Fabric Cleaner onto the wet, stained area.
6. The time the cleaner needs to take effect depends on the extent of staining, and may vary from 3 to 10 minutes.
7. Remove dirt and grease with a sponge or a soft scrubbing pad. Afterwards, rinse the treated fabric thoroughly with clean water and allow to dry.
8. If the stains have not been completely removed, the treatment can be repeated, leaving the cleaner a longer penetration time.
9. Afterwards use Fabric Protector to make the treated fabric water repellent again.

Golden Care Fabric Protector

1. Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your work area before starting.
2. Use first Fabric & Upholstery Cleaner to remove all stains. Allow to dry completely.
3. Fabric Protector is ready to use.
4. Apply directly on the cleaned area.
5. Apply the exact amount of Protector in such a way that the cleaned area is soaked completely.
6. Allow to dry completely before further use.
7. It is recommended that you repeat the treatment with this Protector twice a year.

Golden Care Multi Surface Cleaner

1. Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your working area before cleaning.
2. NOTE: Test for colour fastness in an inconspicuous area before using.
3. This cleaner is ready to use and may be sprayed directly to the surface.
4. Allow application to soak in for 30 seconds.
5. Remove dirt and grease with a sponge or a soft scrubbing pad.
6. Rinse surface with water.
7. Severely stained surfaces may require a second treatment, leaving the cleaner a longer penetration time.

Golden Care Wicker/Textilene Protector

1. Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your work area before starting.
2. First clean the furniture with our Wicker & Textiline Cleaner.
3. Shake well before use, and spray a thin layer on the surface and let it dry for three minutes.
4. Afterwards, buff well with a soft, clean and dry cloth.
5. It is recommended that you treat your furniture with this Protector at least once a year.

Golden Care Resin & Polyethylene Protector

1. Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your work area before starting.
2. First clean the furniture with our Resin Cleaner.
3. Shake well before use, and apply a thin layer with a clean and dry cloth.
4. A haze will develop. Buff to a shine with a soft, clean and dry cloth.
5. It is recommended that you repeat the treatment with this WaxPolish twice a year.

Golden Care Stone/Ceramics Protector

1. Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your work area before starting.
2. Use first our Natural Stone Cleaner to remove all stains. Allow to dry completely.
3. The application temperature needs to be between 5 and 25 °C.
4. This Protector is ready to use.
5. Shake well and apply the Protector on the surface.
6. Buff to a shine with a soft clean and dry cloth.
7. Allow to dry completely before further use.
8. It is recommended that you repeat the treatment with this Protector twice a year.

Golden Care Powder Coated/Cast Aluminium Protector

1. Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your work area before starting.
2. First clean the furniture with Cleaner for powder-coated metal.
3. Shake well before use, and apply a thin layer with a clean and dry cloth.
4. A haze will develop. Buff to a shine with a soft, clean and dry cloth.
5. It is recommended that you repeat the treatment with this WaxPolish twice a year.
